EU GREEN

Urban Gardens, community spaces, and intergenerational bridges: Green Cities for active youth

Project No: 2023-1-ES02-KA220-YOU-000166123

WELCOME TO THE EU GREEN PROJECT!

We're excited to introduce **EU GREEN**, a 24-month project focused on promoting urban community gardens that connect young people and the elderly. Running from December 2023 to November 2025, EU GREEN aims to **promote sustainable practices** and **social inclusion, using gardens as a space for learning and connection.**

Our project supports youth workers by providing **training resources**, while also **encouraging intergenerational engagement**. This helps foster a greener, healthier environment and combats social isolation, especially among young people impacted by the Covid-19 pandemic.

Join us as we work towards greener cities and stronger communities across Europe!

RESULTS

EXPLORE THE EU GREEN INTERACTIVE MAP

Discover a **global collection** of urban gardening and sustainability projects with our **Interactive Map**.

This map showcases various inspiring initiatives from around the world that are transforming communities through urban agriculture.

It's a great way to **see how different regions are tackling environmental challenges and promoting greener, more sustainable living.**

EU GREEN DATABASE

Our **Database** is a rich **multimedia resource** that brings together valuable **information** and **best practices** on urban agriculture.

From articles and videos to case studies, it provides tools and insights for those interested in creating sustainable urban gardens and improving community spaces. This resource is designed to help **guide** and **inspire** anyone looking to make a positive environmental impact in their city.

LATEST MEETINGS

Our most recent project meeting was held in **Reus, Spain**, bringing together all partners to discuss the progress and future plans of EU GREEN.

The meeting focused on **finalising our project roadmap**, including the **upcoming activities** and the development of resources for youth workers.

WHAT'S NEXT?

 **October 2024:** Our **second Transnational Project Meeting** in **Macedonia**, where we will focus on further developing training materials for youth workers.

 **Coming Soon:** We're preparing to launch our **online course** on urban agriculture, which will cover key topics such as the multifunctional role of community gardens, urban cultivation techniques, and ecological garden management. This course will provide **practical knowledge and tools** for those interested in creating sustainable, community-driven green spaces.
